

Dada Says... Loads of books will not help thee in the day of thy departure. A simple word, a simple letter sufficeth. Recite it, again and again, sing it in thy heart. Sing the one word, "Love". It is the only secret.

SVIMS NEWROOM

Inauguration of Sadhu Vaswani International School, Pune

One more Educational Institution has been added under the Mira Education Banner. President Ram Nath Kovind inaugurated Sadhu Vaswani International School in Pune on 30th May 2018. According to President Kovind, the values-based education helps in promoting ethics in society and keeps us 'informed by knowledge, wisdom and learning' with an 'emphasis on a culture of discussion rather than of dispute' as well as 'addressing disagreements while being mindful of the other person's dignity'. Director, Faculty members and staff of SVIMS attended this function.

LoL

Son: I am not able to go to school today.
Father: What happened?
Son: I am not feeling well
Father: Where you are not feeling well?
Son: In school

SIM SWAP on the way... Beware of the Fraud

Ref: Google Images

A Sim Swap scam is a type of fraud that involves a criminal registering an existing number of a telecommunication company's customer on a new SIM card.

To initiate the SIM exchange request, fraudsters pretend to be a customer care representative will call you claiming to be from a particular mobile service provider and inform you that there is a problem with your current SIM card. She/ He may even say that your SIM needs to be upgraded (As most of us have now started using 4G Sim we find it genuine). The person may also SMS you a 20-digit SIM Card number which will be under his/ her possession and not yours.

The fraudster will ask you to forward the number to the telecom service provider and will instruct you to reply '1' for the confirmation SMS, that the telecom service provider will send. It takes 24 hours to get the new SIM card and during this period your SIM will remain de-activated. However, once the confirmation is provided i.e. you reply '1', your existing SIM card will get de-activated and a new SIM card, with your mobile number will be issued to the fraudster and will get activated.

Using your Sim Card the fraudster will then access One-Time Passwords (OTPs) and Unique Registration Numbers (URNs) for all your bank accounts linked with your mobile number and may do fraudulent transactions. You will not be aware of these transactions, as the SIM card in your possession is de-activated and you will not get any information from the bank about the fraudulent transactions.
