Dada Says... Love, love, love even thine enemy.
And though he hate thee as a thorn, thou wilt blossom, as a rose!

SVIMS NEWSROOM

On the occasion of Sadhu Vaswani's 138th Birthday 'Peace March' and 'International Meatless Day' (World Peace and promotion of Animal Rights Day) was celebrated on 25th November 2017.

Students and faculty members took pledges to abstain from food of violence for a day, a week, a month, a year and for life time depending upon the individual.

The Rath Yatra in honour of Sadhu Vaswani started from Sadhu Vaswani Mission at 5pm on 23rd Nov. 2017.

Director, staff members and students enthusiastically participated in the Rath Yatra.

LoL

Son: Daddy, I got 100 marks in school today!

Father: that's wonderful! For what did you get 100 marks?

Son: 30 marks for Maths, 50 marks for English and 20 marks for science.

All together 100 Marks!

Huuuuurrrreeeee.....

E-Learning

E-Learning is a common term for electronic learning. It is nothing but imparting knowledge with the support of computers, tablets, smart phones etc. Continuous development in learning technology is making a huge impact on learners in every age group. This is becoming a more and more reliable means of transforming knowledge in education industry and for various training purposes.

Extensive study proves that a well-planned learning content with the help of various multimedia component makes a huge impact on learners or trainees. Broadly eLearning component is divided into two categories

Synchronous Learning: Synchronous learning is online instructor led learning. This means there is an instructor available who is conducting training on particular date and time for a particular topic through text based or various chat applications or using various online lecture tools. Synchronous learning can happen across the globe where an email is sent to participants to join the online lecture on a particular topic.

- Simplilearn
- Flipick
- Talentedge are names of a few companies which are into synchronous learning.

Asynchronous Learning: A synchronous learning helps you to stay in touch with others in your course using email, threaded discussion, message boards, discussion groups and forums. It is self-study type of learning and it can happen anywhere, anytime. Course information can be found in the form of text, audio, video or interactive self-paced software. This form of learning is highly effective and can create a totally immersive experience for students when combined with simulation and various game based learning techniques.

To name a few companies which are into asynchronous learning are

- Khan academy
- Udemy
- Flipick

There is a combination of both called Blended learning.
