

Dada Says... Every criminal, every sinner, may rise to the stature of a saint.

So hate no one, but give sympathy to all.

Sympathy is the key to right understanding.

SVIMS NEWROOM

LoL

An examination candidate who knew very little English once attended an oral English examination.

The Examiner : What is your Name?

Candidate : Me Chikaboombayba

Examiner : How many are there in your family?

Candidate : Not many. Me, me sister, me mother, and father.

Examiner : Who does the cooking at home?

After a long period of silence, the examiner tried to help.

Examiner : Well, your mother or your sister?

And the Candidate replied: Your Mother!

Cyber Insurance a Blooming Flower in India

Cyber Security has become one of the crucial issues these days. In recent times the incidents like Ransomware, hacking of confidential data has become a day to day act. The insurance sector has evolved with a new concept called "Cyber Insurance". Cyber Insurance deals with the security issues related with the confidential data of the organization. The data may be related with the different stakeholders of the organization or the organization itself. So organizations are at a greater risk in securing their stakeholders confidential data.

Like other insurance plans Cyber insurance comes with different product and services which covers the risk of malfunctioning in the organization. Cyber Insurance is a Risk Management technique through which network user risks are transferred to an insurance company, in return for a fee-the insurance premium.

Due to the emerging trends in digital payments and effects of Demonetization, transactions are cashless in all aspects; Banks are rushing for Cyber Security Covers. Few of the Cyber Insurance providers in India are:

1. New India Insurance
2. National Insurance
3. ICICI Lombard
4. Tata AIG
5. HDFC
6. Ergo
7. Bajaj Allianz

Each provider has come up with their own plans and premiums to secure company's confidential data and claim different things to protect the data. But the Indian market and the industries are yet to accept this concept of Cyber Insurance. It will take some more time to grow in the Indian Market.
