

Dada Says...

From compassion springs humility. The ego is verily a getaway to hell.

The global economy and financial integration have changed the dynamics of the financial sector. An investor needs to understand the nitty – gritty of investment and make sound decisions to minimize financial risks.

Financial literacy increases the awareness about financial products, services and various investment avenues and helps the individuals to make informed choices. Unfortunately when it comes to India, the statistics of financial literacy are shocking. According to a survey conducted by Standard & Poor's, over 76% Indians adults lack basic financial literacy. Taking cognizance of this, the Reserve Bank of India and other financial institutions are now sponsoring programmes on increasing financial savviness and financial inclusion among different sections of society.

To spread awareness about safe financial decisions, SVIMS also organized a workshop on financial literacy, which was conducted by Padamshree Ms. Sucheta Dalal of MoneyLife Foundation under the aegis of BI. Mr. Yogesh also from MoneyLife educated the participants on protecting one's financial interests in digital transactions.
