

Dada Says...

He who cooks for himself alone is a thief! If your house has not a bread for a guest or poor, starving man, are you better than a robber on the high road?

You cease to be human when you do not share and do not bear a brother's burden.

Corporate Interface – Guest Talks

20th December 2018

Topic: The leap from Campus to Corporate

A battle is already half won when you are well prepared for it! Hence, we decided to provide our HR students with an interface with the experts to draw from their experience and smoothly sail through the waters of corporate interviews. We invited Ms. Gurdayal Kaur Panjwani, our alumna and an HR analyst and Ms. Deepa Walimbe, an HR Admin, Talent Acquisition from Northern Trust Corporation to assist our students in preparation for the interview at a top-notch organization. By sharing their insights and experiences in the area of recruitment, they addressed the queries relating to a recruiter's responsibilities, challenges encountered and how to overcome them, how to tap the sources of recruitment and certain special strategies that are used by them as top-notch recruiters.

LoL

Boy: "What's your age?"

Girls: "We don't reveal our age to boys...!"

Boy: "What's your email address...?"

Girl: "pooja_1988@gmail.com"

Fashion

Fashion basically is creating a new style statement. Why should one imitate others to carry out a look, rather create your own look. Simplicity comes best with experiments. Now a days people want to wear minimal and look chic and stylish.

Indian attires give an elegant look though they consume a lot of time. Designers have started creating fusions so that our Indian heritage doesn't fade away. The term 'Fashion Blogger' has come into picture and since then people now can reinvent and create their own styles so as to be the trend setter for everyone. Style isn't always about investments; women and men can create style with innovative ways. Colors are the reason why clothes look bright and beautiful.

"Fashion is a language that creates itself in clothes to interpret reality "- Karl Lagerfeld. Fashion also brings in our minds glitz and glamour but apart from this it should also bring in comfort. There are many aspects that come along with fashion like confidence, familiarity and royalty. Most importantly one must know what should be worn and where. Not only women but even men these days are competing to bring in fashion trends like chinos, ripped denims and also sporting bold colour looks. But as it goes Women always look the best in whatever they wear, it's the women category that creates more of innovation and ideas. Fashion doesn't stay the same, it keeps on evolving from time to time.

The media today has also helped and brought the upcoming trends in our minds and so the youth keeps imitating the Bollywood celebs to enhance their everyday looks too. Fashion should always be up-to a limit or else it can become a reason for concern since silly or blunders can be committed by people to wear anything and anywhere not knowing where they are going wrong.

Fashion is now not only in our clothes but also how to accessorize and experiment with one's hair, footwear and behavior.

Fashion has always been a source of inspiration to tell one another that each of them have a unique identity. It's a way to treat oneself new each day. This helps boost one's self esteem.
